

# DOC: ICU Finace

---

## Overview

The market is bleeding. Recovery which seemed to be underway until the end of this year has stalled and the prospects of any substantial improvement in the crypto market situation seem remote. The situation has led to a rise in financial bankruptcy, even for crypto billionaires, which could well become much more of a problem over the coming days for typical crypto investors like us. How on earth did we lose that amount of money? It is devastating and traumatic. Unfortunately we are already in that position, like patients with severe or life-threatening financial injuries. However, we think there is a plan for recovery.

Here comes ICU Finance. ICU finance is dedicated to rescuing those coins that have been hit by the bear market. As long as they are on the BSC and have been brilliant, we will build a pool for you. Every week, we will vote through the community to select the most popular coin and empower the token of hold token. Staking in the ICU Finance farm is a great way to maximize your holdings, you can earn staking rewards on top of your holdings and grow them further by compounding those future rewards.

## Audit

Auditors will be engaged after each product is completed and launched. All audit reports will be shared on this page as they get published.

<https://github.com/ICUFinance>

The code has been submitted to certik and will be completed soon.

## Smart Contracts

Address	Contract
ICU Token	0xAF388835d3092Dc48E36b42681c323f757688FE2
ICU-BNB Pancake	0x23fC8ADF3ad811C6f9C2230bB6967494A00C71Bd
ICU-BUSD Pancake	0xf672A400AA52DdC7109a16d1497AEbDBb889CaAf

## Team

We are staffed by highly experienced smart contract developers, marketing experts and professional investors who specialize in caring for critically ill patients who are

struggling financially. The team members come from Microsoft, Amazon and Bridgewater fund. In the last project, the ROI reached 100 times a year. More detailed membership information will be released later.

## Product

### ICU Room

ICU room is the core product of ICU Finance – yield optimizer, where you can stock the tokens that need to be rescued. Facing the impact of bear market, since you don't want to sell your position, you don't want to lose your principal. Through ICU room farm, you can obtain high income to hedge the capital risk of bear market.

Comparing to other popular yield optimizer , ICU Room offers:

- No deposited fees
- Totally driven by communities who decide which token pool to be added

### Fees Structure

#### Swap fee

No Buy fee, only charge 9% sell fee.

3% Auto Add Liquidity

3% Auto Pump and Burn

3% Community Incentive

#### Farm token withdrawal fee

No deposited fee, only charge withdrawal fee

Staking duration	Single token pool	LP token pool
< 24h	5% fee	3% fee
24h ~ 48h	3% fee	1% fee
> 48h	free	free

80% of withdrawal fee will be used to Pump and Burn

20% for community incentives, for future airdrop activities, and community contribution awards

## Tokenomics

Ticker:ICU

Chain:BSC network

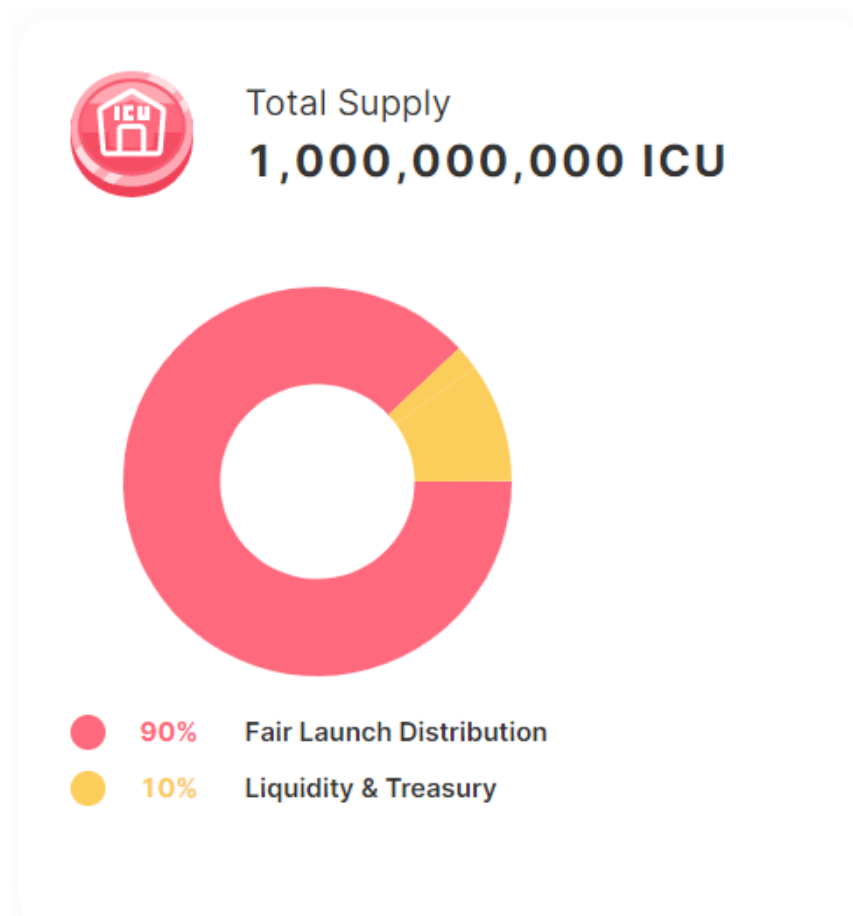

Max Supply: 1,000,000,000

Emission Schedule: max supply to be reached in 3 years

#### Distribution:

**90% Fair Launch Distribution:** No private sale, no presale, no airdrop, no allocation to team members. FAIR LAUNCH!

**10% Treasury:** Initial liquidity for marketing and development expenses and exchanges.

## Farm

ICU emission rate since launch: **821,917 ICU per day**

Farm	Incentives per day	start time
Single token pool		
BUSD	98,630	16th July 12:00 UTC
BNB	98,630	
Alpaca	98,630	
DOGGY	98,630	
Cake	98,630	
LP token pool		
ICU/BNB	164,383	16th July 12:30 UTC
ICU/BUSD	164,383	

## Bonus Rewards Period

To make sure we give everyone enough preparation time, we will start our rewards distribution approximately 16th July 12:00 UTC time .

During the 1-month bonus reward period, 30% of all rewards will be available to claim immediately while the remaining 70% will be locked. This is to ease early selling pressure and maintain steady liquidity within the protocol. The locked rewards will unlock approximately 30 days after the end of the reward period, and then be released linearly across 6 months within blocks . The locked rewards do not compound.

## Invitation reward

In order to motivate the users who make efforts to promote the project, we set up an invitation reward plan. We invite friends to participate in the mining through the invitation link, and we will give the invitees additional output reward. An additional output of 3% of the invited output can be obtained. This part of additional output will be provided by the mine pool, which will not affect the output income of the invitees.

## Goverance

In order to encourage us to participate in the governance of ICU finance, we will launch the governance module of ICU finance in the future, which is divided into two stages: Community proposal stage and Dao voting stage. In the community proposal stage, we will initiate discussions within the community and then vote on twitter. In the voting stage of Dao, we will use ICU for final voting through the governance page. The details will be announced after the function goes online soon.
